Dear Mr. Sheaffer,

On April 15, of this year, I received a reply from NASA about their stand on UFO's. In the sheets of information there was five places in which to write for more fact about this subject. And so I'm asking for all the facts possible. The reason why I'm writing to you is because, in the World History class I'm doing a paper about the U.S. Space Shuttle and its counter-part the UFO.

So all the information that you can sent will be greatly appresheated.

Sincerely,

Paul

Dear Robert Sheaffer

I am 12 years old and I'm interested in UFO's.
I wrote to the Government about UFO's and all they sent me was some
coverup papers. My friends and I are interested in UFO's, but they aren't
near as interested as I am. I'm doing a research on my own. Would you send
me some information. thanks

Sincerely

Mark

I decided to write you -

I hope you can answer to my request.
I wrote to "NASA" and then sent me
your address.

- 1) Owing to evidence and what reasons,
and after what experience got at
CEBALLOS and PAPPAY ALLENDE, in
CHIHUAHUA, states that those places
are ideal for extraterrestrial visitors?
- 2) How you can study the phenomena
happened in the SIENCA SIERRA owing
to which radars and heat-receivers
don't work?

Dear Sir,

I am very interested in U.F.O.s. I am 11 years old. Will you please send me some information about U.F.O.s and some more places I can write for information.

P.S. If you can will you send me some pictures of U.F.O.s.

Dear Sir,

I am writing this letter in the hope that you will be able to assist me in obtaining the latest information concerning U.F.O.'s. The interest of the Japanese people on this subject is sweeping the country at this time.

Of course with the advent of the latest in motion pictures such as "Close Encounters of the Third Kind" and "Star Wars" the subject of U.F.O.'s is at a high pitch, but unfortunately our children in the middle grades do not have a accurate and factual picture.

My purpose is to lecture at different schools and colleges throughout Japan and to bring to light, fact from fiction, the latest and best information that is at hand now.

In addition, we would appreciate any possible information you could provide concerning NASA's involvement in "pyramid" experiments, reportedly conducted during Lunar expeditions claims that the "pyramid" shape (when properly alligned with magnetic north) keeps razor blades sharp for months, mellows cigar smoke, induces rapid plant growth, etc., have aroused public interest here in Japan.

We would like to know the extent of your involvement, if any, in such experimentation.

Dear Gentlemen,

I have heard but unfortunately ~~not~~ read about aerial phenomena standing for Unknown Flying Objects /UFO's/.

I come from the overseas country situated pretty far from the United States of America concentrating now the attention of the world-wide opinion. I attend the secondary school in Warsaw and live in this city. After the several months I will be passing my certificate of completed secondary education. Then I will try to pass another examination in order to study the Arabian philology at the Warsaw University and after that to leave my childish years' country. And I hope I will. From the eighth form of elementary school I have begun to be interested in UFO, hearing many interesting and mysterious tidings from the press newsclippings and reports.

I am especially interested in the question of the possibilities of visiting our Earth by people from the other star-system and possibilities of building the vehicle similar to the UFO's one.

I am afraid I will accept only really serious news about UFO.

Please do let me be informed on the world-wide UFO activity.

I am looking for your exhaustive information.

I will be very grateful for early reply .

Yours very truly,

Krzysztof

Dear Public Relations Manager

I write this letter for request the you photos and articles about U. F. O.s ; if possible, I would like to know the cases that involved the USAF .

For my, these photographs will be the great importance for my , collection, because, they'll constitute an archive about U. F. O. Phenomena. For that I can make my studies with it.

My address for a next contact is:

Dear Mister:

We are high school students in our town in Brasil. The studies on U.F.O (UNIDENTIFIED FLYING OBJECTS) have been interesting us a lot and we've heard from papers and magazines at our country, articles which comment about these facts, appearance of these objects in the whole world and many of them are joined to Bermudas Triangle cases.

Here in Brasil, these studies are very hard to get because we are beginners on that matter, so we'd like you so much to mail us some explanations or/and samples telling us how to get them out of yours.

Hoping to receive a prompt reply, we beg to remain
your dear friends, sincerely from.

Dear Mr. Sheaffer,

I am extremely interested in the subject of UFOs, and would appreciate some information concerning your organization and it's role in UFO-watching. How long have you been in existence and what exactly do you do? Are you local, national, or world-wide? Do you charge membership fees? If so, what services do you provide?

I dream constantly of making contact with an ETI and being invited aboard one of their ships for a quick spin around the galaxy. I have even written NASA, volunteering my services. They didn't want me. Twice. Evidently, my degree in Physical Education did not impress them. It doesn't impress me much either, but when someone offers their body and soul, gratis, the least they deserve is a halfway decent rejection notice. They brushed me off like an insect.

Still, I have not stopped dreaming. I read every UFO book I can get my hands on and watch every documentary that hits the TV screen. I am a Trekkie, would love to become a viper pilot on the Battlestar Galactica, and made my father eat five pounds of Reese's Pieces in order to obtain a poster showing Elliott and E.T. cycling across the face of the moon, my favorite movie scene of all time. I'm space-happy; I admit it! I'd renounce my life on Earth and board the Ship of Farthest Light for parts unknown without hesitation. I was meant to space, and it was just my crummy luck to have been born two hundred years too soon, or on the wrong lousy planet.

Dear Sirs:

For many years I have been interested in the phenomena of unidentified flying objects. I am currently enrolled as a freshman at [redacted] University and am in the pre-engineering

Concerning your institution, I would like to know the following:
1. What job opportunities are available in the research and study of U.F.O.s, 2. What educational prerequisites are required to obtain job status, and 3. Which educational institutions offer programs in UFOology.

Thank you for your cooperation and consideration in this matter and I will be eagerly awaiting your reply to this inquiry.

Sincerely,

David [redacted]

Dear Mr. Saenz:

Thank you for your letter. There are no "secret astronaut photos" of UFOs. Those stories are false, and are made up by the press. James Oberg has investigated these claims, and has found no truth at all to them. There is also no truth to the claim that UFOs have crashed, and that the U.S. government has the bodies of dead aliens. The U.S. government would not be able to keep a secret like that!

We cannot say anything about the "propulsion system" of UFOs until it is proven that UFOs are real. There is no scientific proof at this time that UFOs really exist.

I appreciate your offer to send me materials about UFO sightings in your country. That would be most helpful. Also I would like to see the wild stories in the newspapers that make people think that NASA has secret photos of UFOs.

Sincerely,

Robert Sheaffer
